

TVH Equipment – Workshop Sales Technician – Waregem

Your Role

As a technician in the Workshop Sales team, you'll be part of a dynamic team responsible for inspecting, repairing, and preparing machines for sale. You ensure that our customers receive fully functional and well-maintained machines.

What will you be doing?

- You will prepare new and second-hand machines for sale.
- For new machines, you will customize them according to customer specifications: install accessories, adjust parameters, mount track units, etc.
- For second-hand machines, you will bring them technically up to standard and make them aesthetically pleasing again.
- You will inspect for wear, diagnose faults, and carry out necessary repairs.
- You will repair hydraulic leaks, remove unnecessary accessories, and install electrical units.
- You will apply stickers to machines and check safety functions.
- You will gain broad knowledge of different types of machines – both on the job and at our training center.

Who Are You?

- You have a technical diploma (e.g., TSO in Automotive Technology or Electromechanics) or equivalent experience.
- You are familiar with test and diagnostic equipment and can read technical schematics.
- You have knowledge of mechanics, hydraulics, sensors, and electrical components – or are willing to learn.
- You speak fluent Dutch and/or French.
- A forklift or aerial work platform license is a plus.

What We Offer

- A permanent contract.
- Flexible working hours between 7:30 AM and 9:30 AM.
- 15 paid ADV days in addition to your regular vacation days.
- Meal vouchers worth €8 per working day.
- Hospitalization and group insurance.
- Mileage reimbursement and bicycle lease option.
- Tailored training opportunities for your growth.
- A CAO 90 bonus as an extra perk.

And above all: a team you can rely on, and where you will make a real impact.
