

TVH Equipment – Workshop Sales Technician

The job

From diagnostics and repairs to assembly and technical adjustments: you make sure our machines are technically ready for their next owner.

As a technician within Workshop Sales, you work on new and used machines that we sell. You make sure every machine is technically sound and ready to be delivered to the customer.

You will join a team of around four technicians. You will work closely with your colleagues and receive guidance from a specialist as you develop your skills. Don't have all the required knowledge yet? No problem. We invest in the training of our technicians and teach you the ins and outs of the job.

What will you do?

- You prepare new and used machines for sale.
- You install accessories and adapt new machines according to customer requirements.
- You configure parameters and install tracking units, among other things.
- You inspect machines for wear, faults and technical issues.
- You diagnose problems and carry out repairs.
- You repair hydraulic leaks and remove unnecessary accessories, among other tasks.
- You check safety functions and make sure the machine is technically in perfect working order.
- You contribute to the final finishing of the machine, such as applying the correct stickers.
- You work with different types of machines, building broad technical knowledge in mechanics, hydraulics, electrical systems and electronics.

Your profile

- You have completed a technical education, for example in automotive technology, electromechanics or an equivalent field, or you have relevant experience.
- You have a solid technical background and enjoy working with machines.
- You can work with testing and diagnostic equipment and read technical diagrams.
- You have knowledge of mechanics. Experience with hydraulics, sensors and electrical components is a plus.
- You are curious and eager to learn.
- You speak Dutch fluently. Knowledge of French and English is a plus.

Don't have all the required knowledge or certificates yet? No problem. We provide the necessary training and certificates, such as forklift and working-at-height certificates.

Your benefits at TVH Equipment

- A permanent contract
- A 40-hour working week with 15 paid ADV days

- Flexible starting hours between 7:30 and 9:30
- No collective summer shutdown
- Training, guidance and career development opportunities
- Hospitalisation and group insurance
- Meal vouchers worth €10 per working day
- Mileage allowance, bicycle leasing and flexible working system
- Your own tool trolley and workwear
- CAO 90 bonus
